UNIFORM CRIME REPORTS

COMMONWEALTH OF KENTUCKY

OFFICE OF THE GOVERNOR
FRANKFORT, KENTUCKY 40601

MARTHA LAYNE COLLINS
GOVERNOR

My Fellow Kentuckians:

Crime is one of the most serious and perplexing problems we must face each day.

As indicated in this 1984 "Crime in Kentucky" report, it is encouraging to learn that the number of serious crimes decreased by more than 4%. However, it is most alarming to note that more than 100,000 citizens became victims of serious crime during the year.

In 1984 the economic loss for fellow Kentuckians exceeded a staggering $75 million for reported property thefts alone. The fact that there were more than 10,000 victims of murder, rape, robbery, and aggravated assault during the past year is even more appalling.

We desperately need to make Kentucky a safer place to live. The quality of life in the Commonwealth depends on our response to the harsh facts and realities associated with crime. Hopefully, the detailed information contained in this report will serve as a basis for developing effective strategies to combat crime.

If police officers and citizens will join together in developing effective strategies, I am convinced that a substantial reduction of crime in Kentucky is within our grasp.

I will continue to support law enforcement and citizen crime prevention efforts in order to achieve this goal. I encourage every citizen and police officer to do likewise.

Sincerely,

Martha Layne Collins

COMMONWEALTH OF KENTUCKY
KENTUCKY STATE POLICE
FRANKFORT 40601

OFFICE OF THE COMMISSIONER

To the Honorable Martha Layne Collins, Governor of the Commonwealth of Kentucky:

Pursuant to KRS Chapter 17, the fifteenth annual "Crime in Kentucky" report is respectfully submitted.

In order to make this report more useful and understandable for law enforcement and citizens alike, we have made every effort to provide more in-depth analysis of serious crime in the Commonwealth.

I am pleased to advise you that of the three hundred fifty law enforcement agencies required by Chapter 17 to participate in Kentucky's Uniform Crime Reporting System, a ninety-five percent compliance was realized during 1984.

In order to achieve an accurate assessment of crime and arrest data in the Commonwealth, we will continue to meet our responsiblities in assisting all local police departments in Kentucky to submit timely and accurate reports.

Morgan T. Elkins

Morgan T. Elkins
Commissioner
Kentucky State Police

Dedication

This 1984 Crime In Kentucky Report
is fittingly dedicated
to

Deputy Sheriff Carnie F. Hopkins
&
Officer Anthony P. Jansen

who paid the supreme sacrifice of their lives
on behalf of the citizens of the Commonwealth.

Deputy Sheriff Carnie F. Hopkins
Livingston County Sheriff's Office
June 30, 1927 - September 9, 1984

Officer Anthony P. Jansen
Newport Police Department
September 24, 1959 - December 30, 1984

Deputy Sheriff Hopkins was slain by an unknown assailant while checking on a pedestrian walking along a highway in Livingston County at approximately 11:30 at night, September 9, 1984.

Officer Jansen was killed in the line of duty approximately 1:20 AM on December 30, 1984, in Newport, Kentucky, while answering a "man with gun" call.

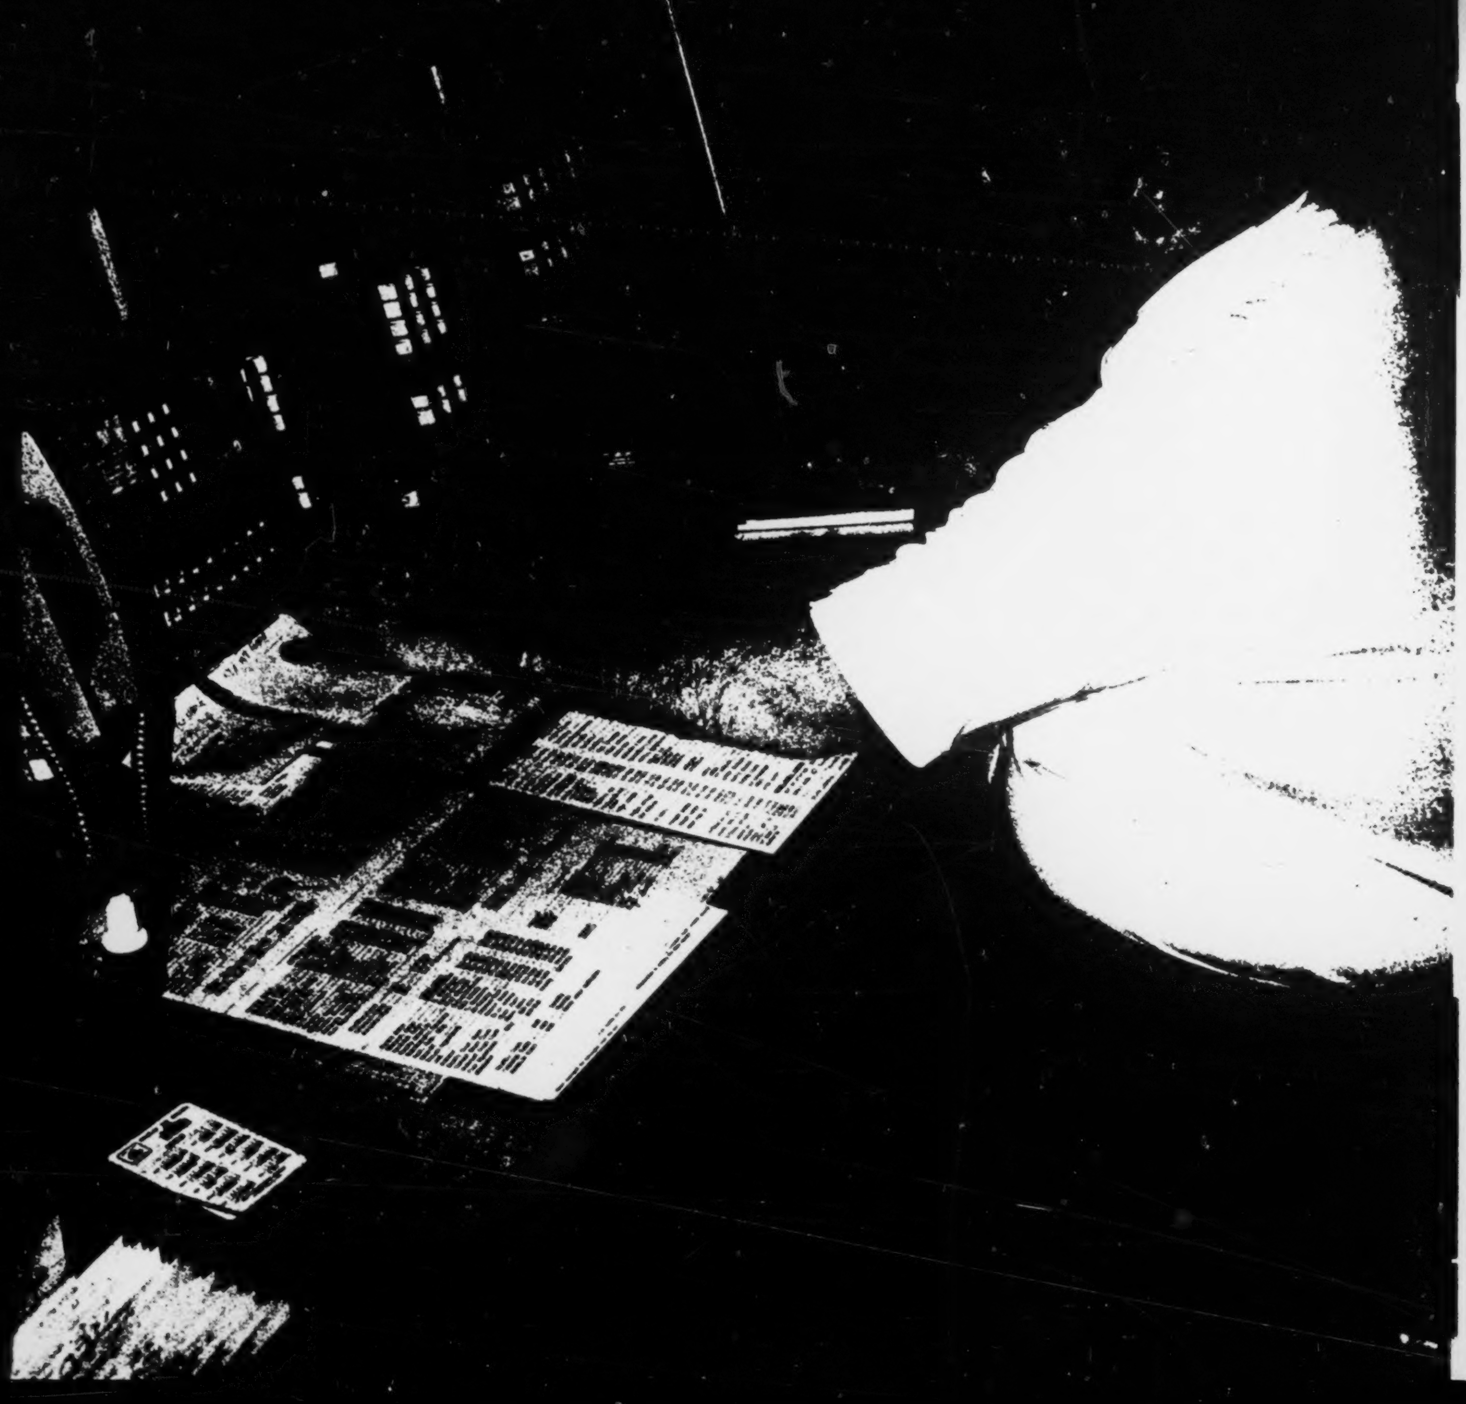
KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM



KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

WHAT IS THE UNIFORM CRIME REPORTING SYSTEM?

The Uniform Crime Reporting System collects, compiles, classifies, analyzes, and reports national, statewide, and local area offense and arrest data. Chapter 16 of the Kentucky Revised Statutes, as amended in 1976, requires that all law enforcement agencies file UCR reports and vests the authority and responsibility for the system with the Commissioner of the Kentucky Department of State Police.

WHY IS A UNIFORM CRIME REPORTING SYSTEM IMPORTANT?

Accurate and timely crime data are vitally important tools for law enforcement planning, operations, and management. The Governor and other public officials entrusted with the responsibility for the safety, well-being, and quality of life in the Commonwealth, citizens who are potential victims of crime; and researchers engaged in the study of crime and its effects are entitled to an assessment of the crime problem.

In order to maintain uniformity of crime and arrest data nationwide, standardized definitions of crimes reported through the UCR system have been adopted. This uniformity is important to overcome variations in definitions of criminal offenses among states and localities.

HOW DOES THE UCR SYSTEM WORK?

Each law enforcement agency in Kentucky is responsible for compiling its own crime reports and submitting them monthly to the Records Section of the Kentucky State Police. Based on citizen complaints and arrest records, each agency tabulates its data and enters it on standardized UCR forms. The Kentucky State Police submit Uniform Offense Reports in lieu of UCR monthly reports. State Police UORs are tabulated by computer and form the basis for the State Police Uniform Crime Reports.

All UCR reports and UORs are checked for accuracy and reasonableness before they are entered into the computer by the Data Processing Section. If a report is incorrect, the agency is contacted by the Inter-Police Services Section Officers who are responsible for assisting local departments in meeting their Uniform Crime Reporting requirements.

FBI NATIONAL REPORT

HOW ARE CRIMES CLASSIFIED?

Offenses are divided into two broad classifications: PART I and PART II Crimes. Offense and arrest data are reported for all PART I crimes; however, it is important to recognize that the UCR system tabulates arrest data only for PART II Crimes. Another point to remember is that the UCR system does not differentiate between felonies and misdemeanors, degrees of criminal acts, and other distinctions made by state penal codes. Further, it must be noted that the UCR system records all arrests, irrespective of whether the person arrested is subsequently found not guilty in a court of law.

UCR guidelines do allow for deletion of offenses which are subsequently found to have been "unfounded" complaints, and tabulates all PART I Crimes which are cleared by arrest or other means. The UCR system also establishes a "hierarchy" among the seven PART I Crimes; in the case of multiple offenses, the crime considered to be more serious is counted. An exception to the hierarchy rule is in the case of Arson. If an Arson is perpetrated concurrent with another crime, both the Arson and other crime are scored.

PART I CRIMES (defined in the analysis of each Part I Crime) include the following seven offenses: MURDER; RAPE; AGGRAVATED ASSAULT; BURGLARY; LARCENY; and MOTOR VEHICLE THEFT.

PART II CRIMES include the following twenty-two offenses: OTHER ASSAULTS; ARSON; FORGERY & COUNTERFEITING; FRAUD; EMBEZZLEMENT; STOLEN PROPERY—BUYING, SELLING, RECEIVING; VANDALISM; WEAPONS—CARRYING, POSSESSING, ETC.; PROSTITUTION & COMMERCIALIZED VICE; DRUG ABUSE VIOLATIONS; GAMBLING; OFFENSES AGAINST FAMILY & CHILDREN; DRIVING UNDER THE INFLUENCE; DISORDERLY CONDUCT; VAGRANCY; ALL OTHER OFFENSES (except Traffic); SUSPICION (adults only); CURFEW & LOITERING VIOLATIONS (juveniles only); and RUNAWAYS (juveniles only).

LIMITATIONS REGARDING THE ANALYSIS AND INTERPRETATION OF CRIME DATA

The UCR system strives to achieve a uniform, standardized data base for all serious crimes. Care and caution should be exercised, however, in making comparisons between year-to-year fluctuations, indexes, or rates of crime per population group, as well as any difference in crimes reported by one agency or another. Fluctuations can be attributed to real crime; e.g. modifications in the record-keeping and reporting practice of a police department, fraudulent reporting of property offenses for insurance purposes, etc.

The primary limitation of the UCR system nonetheless, is attributable to the fact that as much as forty percent of the crimes committed are never reported by citizens, as testified to by reliable victimization studies.

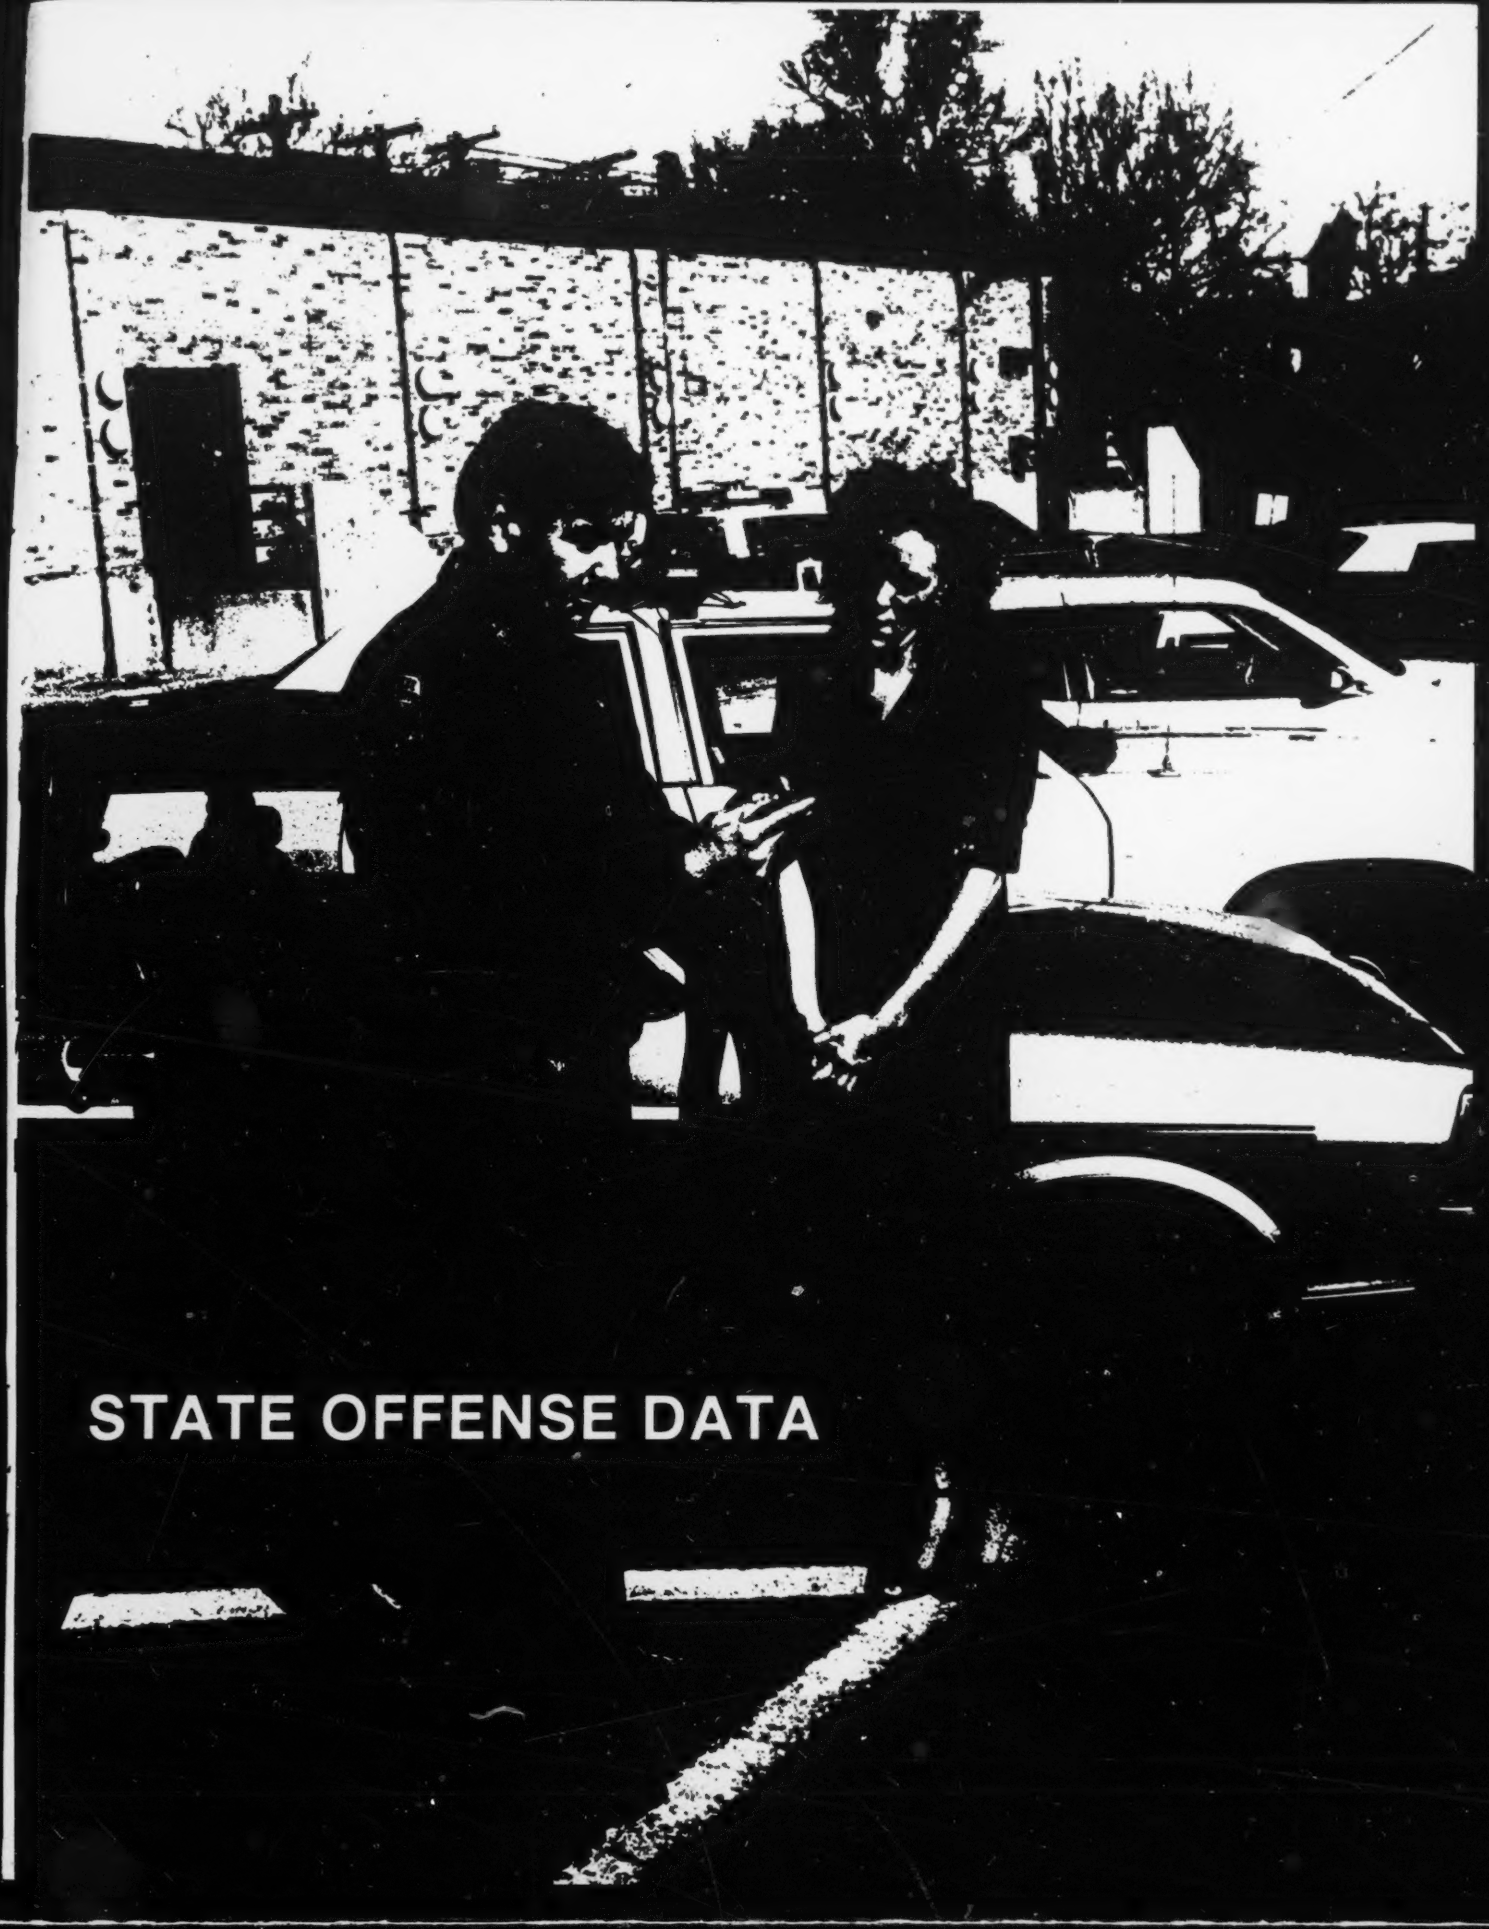
NOTABLE ADDITIONS TO THE 1984 CRIME IN KENTUCKY REPORT

The 1984 *Crime In Kentucky Report* incorporates a new format and other features—all in the interest of clarity and usefulness to the reader.

Numerous graphics to visually present data and summaries;

Maps to show volume of crimes and arrests in each Area Development District.

Offenses for each agency jurisdiction and the number of UCR reports on file during 1984 are presented as well as an analysis of the crime of Arson and a statistical summary of both criminal and noncriminal activities processed by the Records Section for law enforcement agencies in Kentucky.



STATE OFFENSE DATA

STATE OFFENSE DATA

A total of 107,295 PART I Crimes were reported to the police during 1984, a decrease of 4,539 serious crimes compared with 1983. This represents an overall decrease of 4.1%

Murder, the least frequently reported PART I Crime, and the life-threatening crime of Robbery decreased significantly. Murder: -12.7%, and Robbery: - 14.6%.

Rapes increased by 17.9%, and Aggravated Assaults increased by 5.8%.

Larceny Thefts and Burglaries accounted for 84.5% of all PART I Crimes.

"Property" crimes - Burglary, Larceny Theft, and Auto Theft decreased in 1984, with Burglary showing the most significant decline, -8.7%.

Part I Crimes	**Offenses Reported**		**Percent**	Percent Distribution (1984)

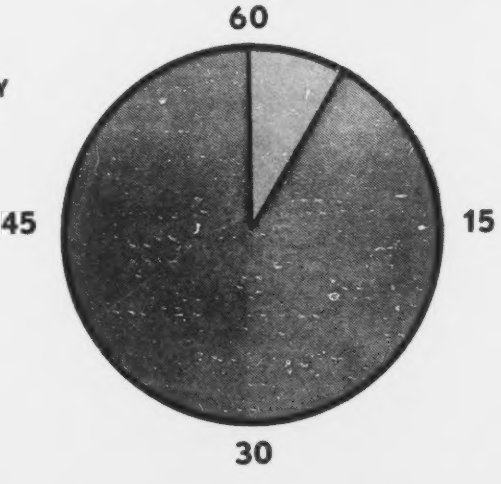
A SERIOUS CRIME OCCURS IN KENTUCKY every 5 MINUTES



A detailed analysis of each PART I Crime can be found in the sections of this report titled Murder, Rape, etc.

CRIME TRENDS: Annual fluctuations in the number of reported crimes can be attributed to a variety of factors other than real changes in Crime. Such factors notwithstanding, the right-hand graph depicts a ten-year pattern for PART I crimes (1975-1984). The relationship between Property vs. Violent Crimes is also depicted. The graphs below depict patterns for each of the seven PART I Offenses.

As depicted below, Aggravated Assaults have steadily risen since 1978. Robbery has steadily declined since 1981. All other PART I crimes "peaked" in 1980 and then began to decline, with the exception of Larceny-Thefts. Burglary, Auto Theft, and Murder have steadily declined since 1980. Rape increased by 17.9% in 1984.

OFFENSE DATA — 1984

URBAN/COUNTY — MID, SMALL, RURAL, CITY/COUNTY — CAMPUS CRIME

A comparison of PART I Crimes in Kentucky's urban, rural, and campus jurisdictions is depicted in the right-hand chart. PART I Crimes are tabulated for each URBAN/COUNTY (counties with cities of the first, second, and third class) in the chart below.

The thirteen Urban/Counties represent 45.8% of Kentucky's population and 68.6% of all PART I Crimes. Rural areas reflect 54.2% of the state's population, but reported 29.3% of the PART I Crimes. PART I Crimes reported by the seven Universities with police departments reporting UCR data reflect 2.1% of the state's total offenses.

[illegible]	URBAN COUNTY %	[illegible] RURAL COUNTIES %	[illegible]
MURDER	38.7	61.2	0.04
RAPE	65.3	34.6	0.03
ROBBERY	84.8	15.1	0.03
ASSAULT	55.4	44.5	0.05
BURGLARY	66.6	32.7	0.07
LARCENY	71.1	25.7	3.18
AUTO THEFT	61.2	38.5	0.03
TOTAL	68.6	29.3	2.10

Percentages do not equal 100% due to rounding. Campus Crime data was extracted from Urban/Counties and includes only those Universities with law enforcement agencies which report offense data through the UCR system: University of Kentucky, University of Louisville, Northern Kentucky, Eastern Kentucky, Morehead State, Murray State, and Western Kentucky Universities.

CLEARANCE RATES
1980 - 1984

Clearance rates are depicted in the chart below for a five year period, 1980 through 1984. Clearance rates are the percentage of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder rape, and assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim in identifying the perpetrator.

	MURDER	RAPE	ROBBERY	ASSAULT	BURGLARY	LARCENY	AUTO THEFT	TOTAL
1980	83.8	63.8	30.9	64.5	14.2	16.2	13.6	18.0
1981	83.4	54.7	27.6	63.2	13.8	17.1	13.5	18.7
1982	85.4	66.1	29.6	67.8	16.5	17.7	16.7	20.6
1983	86.5	66.9	31.9	69.3	16.2	18.9	16.7	21.6
1984	86.6	67.2	30.6	71.7	18.2	21.3	19.4	24.1

PERCENT OF ADULT-JUVENILE INVOLVEMENT IN TOTAL INDEX OF OFFENSES CLEARED — 1984

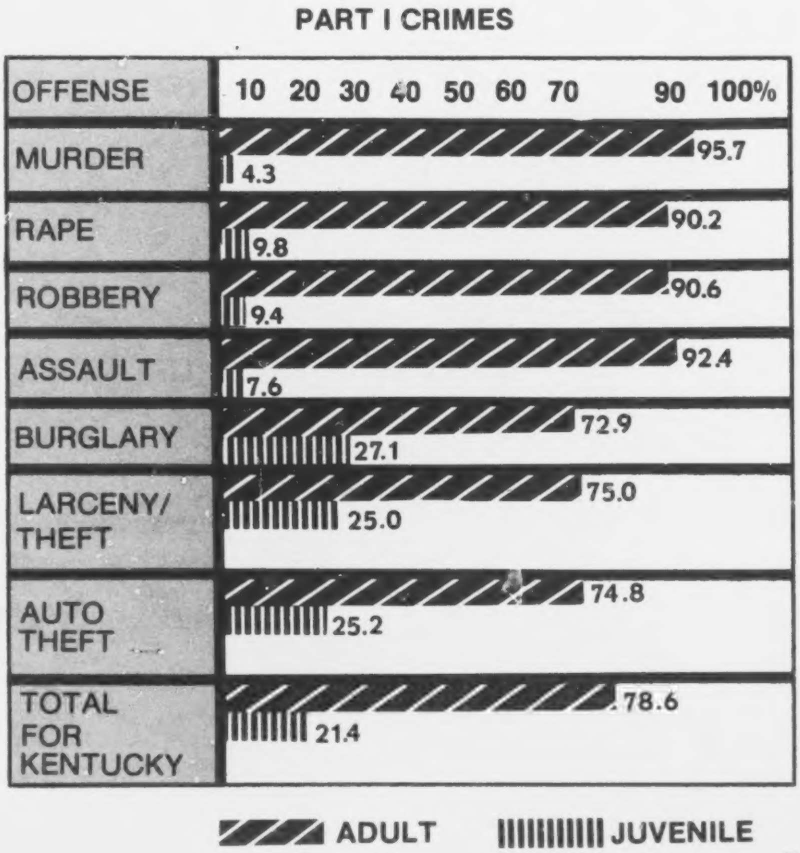
The right hand column compares clearance rates for each PART I Crime, showing juvenile versus adult involvement.

The percentage of juvenile versus adult involvement in those offenses with a high clearance rate fairly reflects the actual percentage of juveniles who commit those offenses.

In the case of robbery and property crimes, however, the clearance rates do not necessarily portray the percentage of involvement of juveniles - due to the fact that relatively few of those offenses are cleared by arrest.

Burglary, Larceny, and Auto Theft arrests clearly indicate that a large number of juveniles are involved in these offenses. Approximately one fourth of all arrests for burglary, larceny, and auto theft are "juvenile arrests."

Relatively few juveniles are arrested for Murder, Rape, Robbery, and Assault.



CLEARANCE RATES

The Chart and Map below depict clearances of PART I Crimes for each of Kentucky's Area Development Districts. Clearance rates, arrived at by comparing the total number of offenses with the number of cases cleared by arrest or exceptional means, range from a low of 16.4% to a high of 47.1%.

	Actual PART I OFFENSES	Cases Cleared		% Cleared by	
		Number	Percent	Adult	Juvenile

MURDER IN KENTUCKY

STATE • POLICE
0387

MURDER IN KENTUCKY
1984

DEFINITION

Murder is the unlawful killing of a human being with malice aforethought. All homicides due to a fight, argument, quarrel assault, or commission of another crime are included. Offense data for murder include only those offenses known to the police irrespective of arrest, arraignment, and conviction data. Traffic deaths due to negligence are not included under murder but are counted under manslaughter by negligence. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder category.

NUMBER REPORTED	CLEARANCES	RATE
240	208	86.6%

Murder is the most serious of all PART I Crimes. Of the 240 criminal homicides reported in Kentucky, 208 were cleared by arrest or exceptional means. The 86.6% clearance rate for Murder is the highest of all PART I Crimes. Although some murders are difficult to solve, the intensity of police investigations together with solvability factors account for the high clearance rate for Murder.

As depicted in the map (below), each of Kentucky's Area Development Districts reported at least one murder during 1984, with a low of one offense in Buffalo Trace to a high of fifty-two in the Jefferson Area Development District.

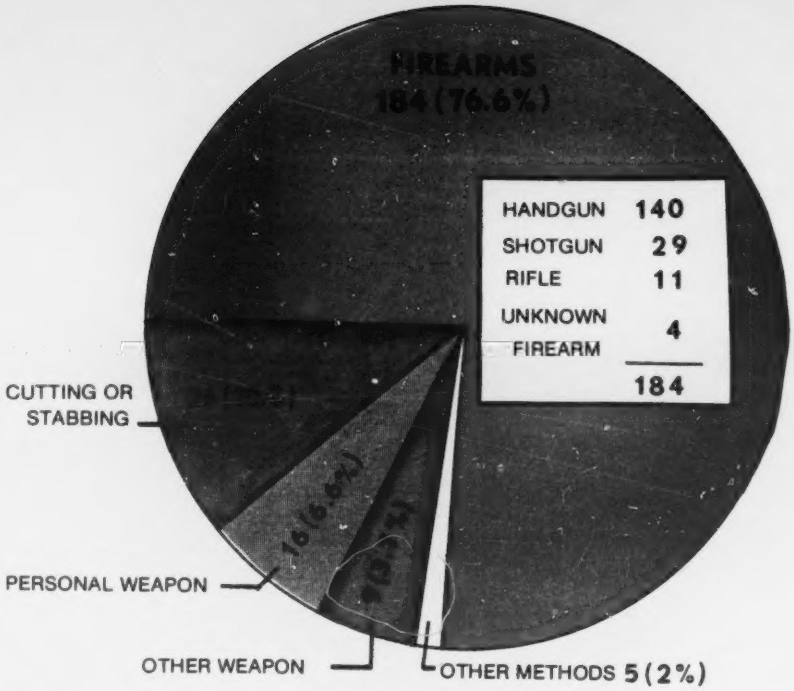
MURDER WEAPONS:

A firearm was used in 184 (76.6%) of the murders perpetrated in Kentucky during 1984. Handguns accounted for 77.7% of the murders resulting from a firearm.

A knife or other sharp instrument was used in 10.8% of the 1984 murders.

Weapons other than firearms and knives used in 1984 Murders included blunt instruments (clubs, sticks, walking cane); choking with hands, belt, panty-hose; and one incident involving Arson.



MURDER BY TYPE OF WEAPON USED

MURDER CIRCUMSTANCES:

The circumstances precipitating Murder can be categorized as felony or non-felony type murders. Forty-three incidences (17.9%) were felony-type murders (perpetrated in the commission of a serious crime such as robbery, rape, etc.)

154 murders were precipitated by arguments, fights, quarrels, or brawls, representing 63.4% of all 1984 Murders.

In 41 incidences (16.8%), the circumstances surrounding the Murder were unknown.

MURDER CIRCUMSTANCES

MURDER VICTIMS

The age, sex, and race of Kentucky's 240 Murder victims are shown in the right-hand chart. 78.3% of the victims were male, 21.7% female; 83.3% were white, and 16.7% were black.

59.6% of Kentucky's murder victims were between the ages of twenty and thirty-nine. 29.1% of the 1984 murder victims were between the ages of forty and fifty-nine. 9.5% of the victims were sixty years of age or older; two victims were four years of age or younger.

MURDER VICTIMS BY AGE, SEX, AND RACE

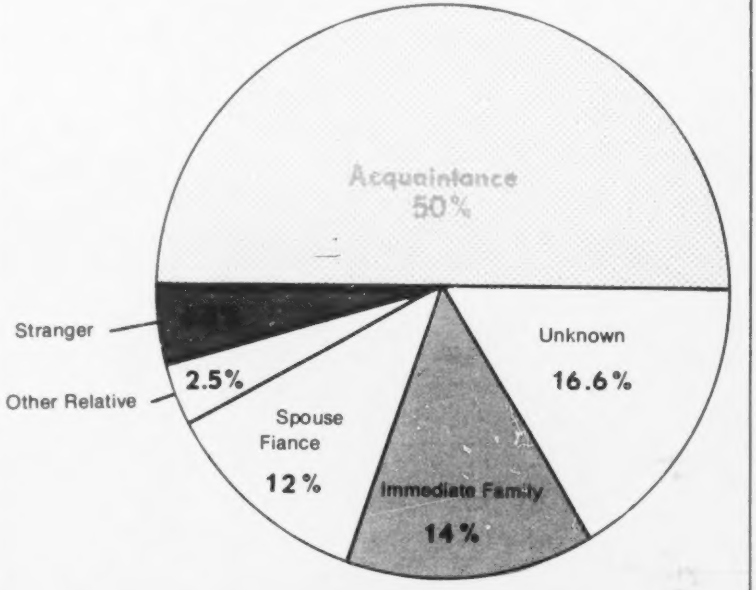
NO VICTIMS DURING 1984

RELATIONSHIP OF VICTIM TO OFFENDER

In 78.5% of all Murder cases during 1984, the victim was known to the offender. In only 4.5% of the incidences was the offender a stranger.

IN 16.6% of Kentucky's Murder cases (approximately the same number of "unsolved" Murders) there is no reliable information regarding the relationship of the victim to the offender.

Due to the high number of murder cases in which the victim and offender are related or acquainted, investigations of most murders result in a clearance by arrest.



RELATIONSHIP
of
VICTIM TO OFFENDER

PERSONS ARRESTED FOR MURDER — 1984

221 persons were arrested for Murder during 1984. Of those arrested, 84.6% were male; 15.4% were female; 80.5% were white; 95% were adults; and 5% were juveniles.

Of the adults arrested for murder, 59% were between the ages of eighteen and thirty-four. Of the eleven juveniles arrested for murder, eight (72.7%) were between the ages of fifteen and seventeen. Three juveniles were under fourteen years of age.

36% of the murder arrests were in the Jefferson and Bluegrass Area Development Districts.

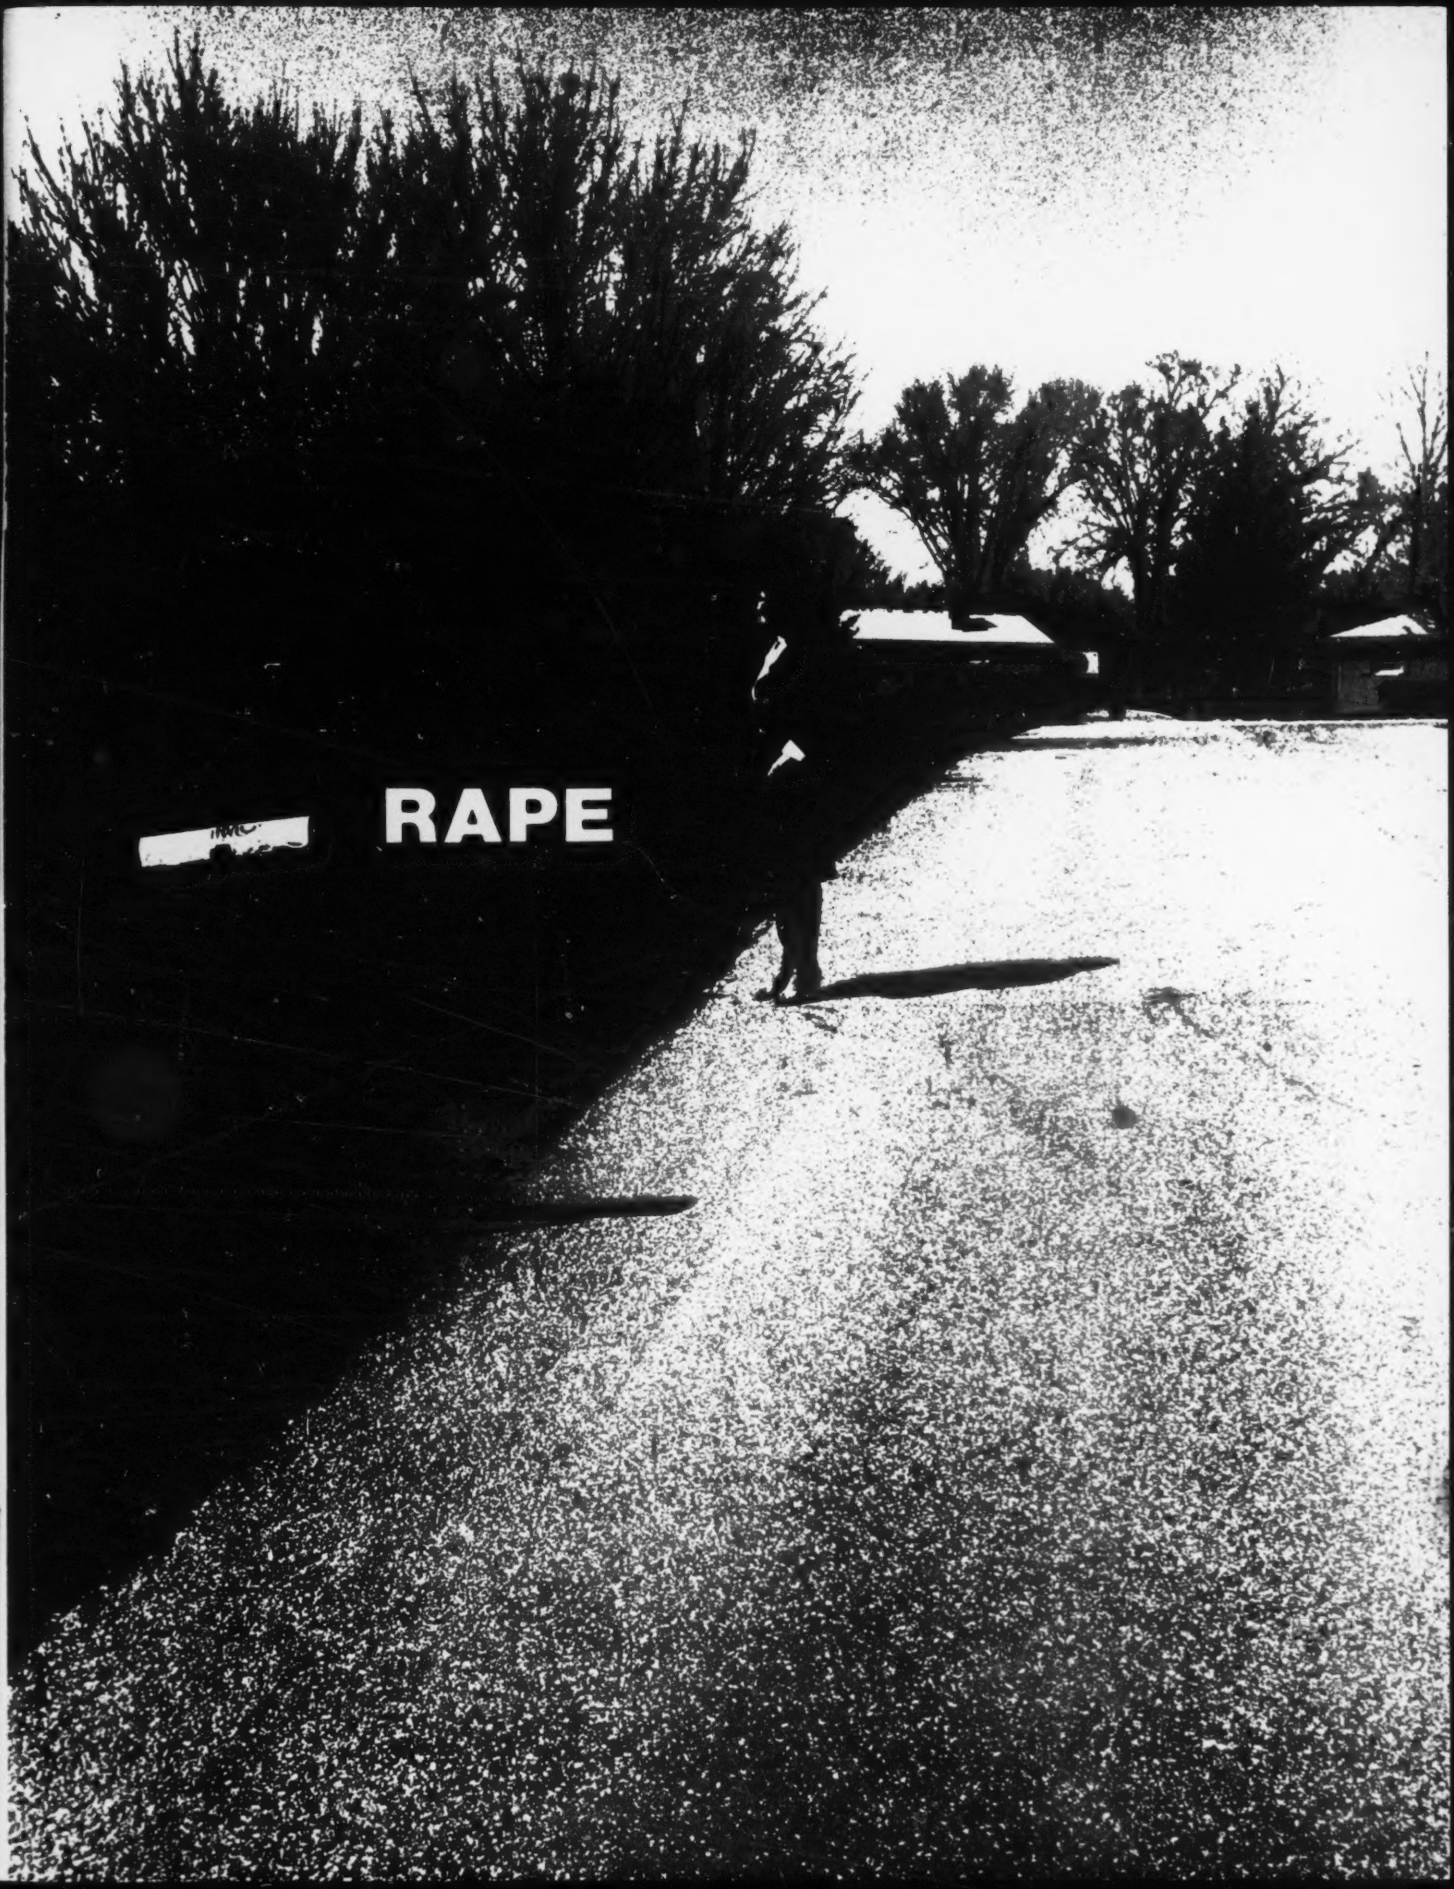
RAPE



RAPE IN KENTUCKY
1984

DEFINITION

Rape is defined as the carnal knowledge of a person forcibly and against the person's will. Only "forcible" rapes are included, together with assaults for the purpose of rape and attemped forcible rapes. Excluded are statutory rapes (rape of a female victim who is "under age" when no force is used), carnal abuse, and other sex offenses.

NUMBER REPORTED	CLEARANCES	RATE
804	540	67.2%

804 Rapes were reported to the police during 1984. 540 of the reported Rapes were cleared by arrest or exceptional means. The 67.2% Clearance Rate is high when compared with property and other offenses. One explanation for the many rapes cleared is the fact that the victim and the offender are frequently acquaintances or even related.

53.7% of the reported Rapes occurred in the Jefferson and Bluegrass Area Development Districts. However, as indicated in the map (below) Rapes were reported in all of Kentucky's Area Development Districts.

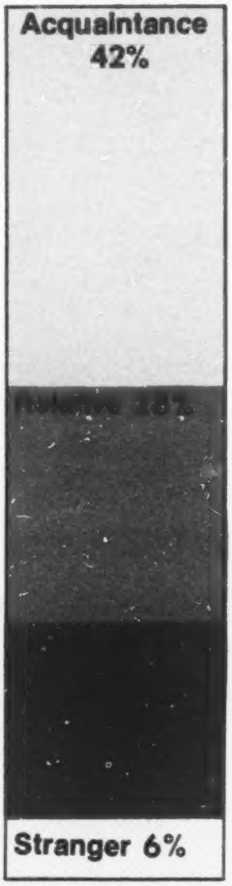
THE RELATIONSHIP OF RAPE OFFENDERS TO VICTIMS

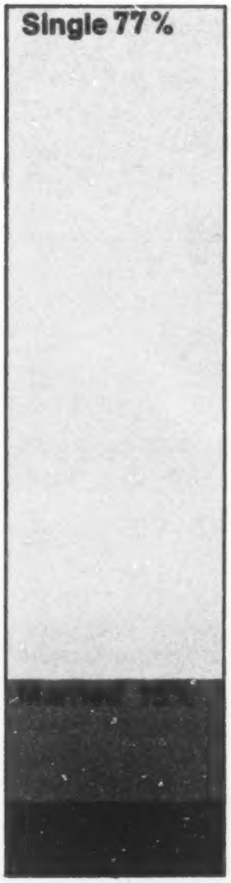
The analysis of Rape is based on a sample of 216 Rapes reported to the Kentucky State Police. As shown below, strangers and unknown perpetrators accounted for 30% of these sample cases. In 70% of the cases the victim and the offender were acquaintances (42%) or relatives (28%).

77% of the victims were single. 8% were divorced. In only 15% of the sample cases were Rape victims married.

While these cases represent 26.8% of all Rapes reported in Kentucky during 1984, the selected sample is fairly consistent with national and other studies which point to the frequency of Rape among acquaintances and relatives.



OFFENDER RELATIONSHIP TO VICTIM

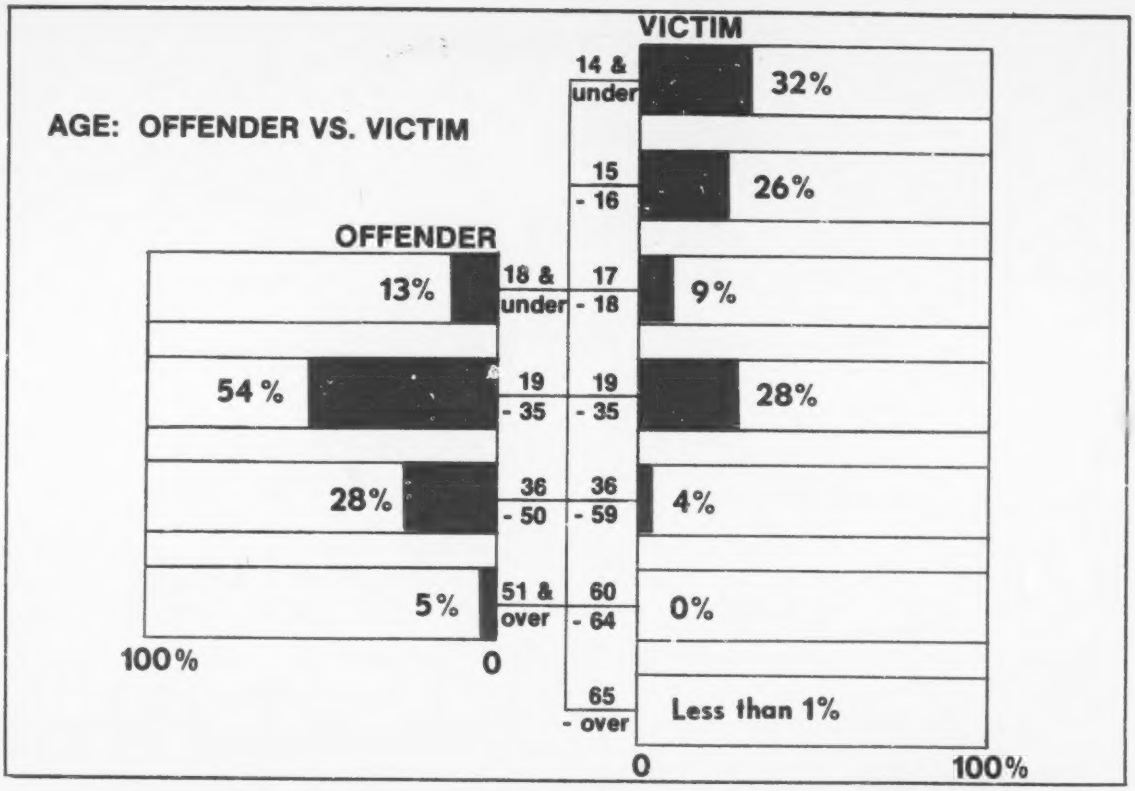


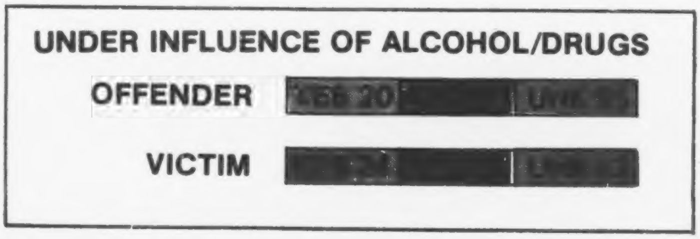
MARITAL STATUS OF RAPE VICTIMS

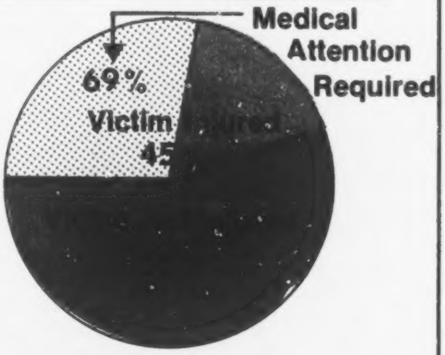
Status Unknown
Less Than 1%

Source: Kentucky State Police SPCVIS, 1984

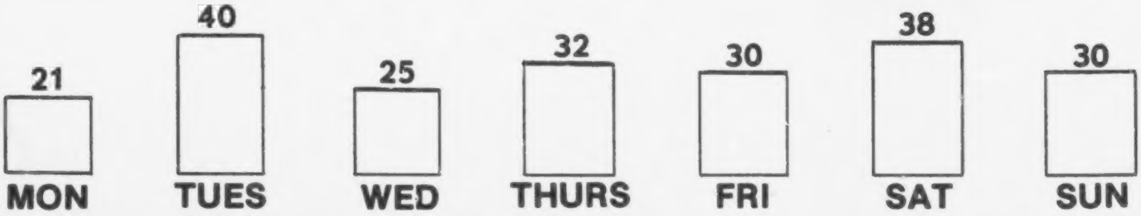
As depicted below, 58% of the rape victims in the sample were sixteen years old or younger, with 32% of the victims fourteen and under and 26% ages fifteen or sixteen. 54% of the offenders were between the ages of nineteen and thiry-five.







A small percentage of both offenders and victims were under the influence of drugs or alcohol. 69% of the victims were injured, with 45% of those injured requiring medical attention.



Source: Kentucky State Police SPCVIS, 1984

PERSONS ARRESTED FOR RAPE - 1984

478 persons were arrested for Rape during 1984. 98.1% of those arrested were male; 75.1% were white; 24.9% were black; 89.7% were adults; and 10.3% were juveniles.

Of the adults arrested for Rape 65.7% were between the ages of eighteen and thirty-four. 63.3% of the juveniles arrested for Rape were between the ages of fifteen and seventeen.

28.7% of all arrests for Rape were reported by agencies in the Jefferson Region.

ROBBERY

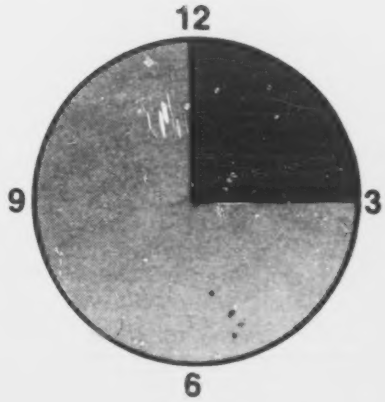
ROBBERY IN KENTUCKY

DEFINITION

Robbery is the felonious and forcible taking of the property of another against his will by force or the threat of force or violence and/or by putting the victim in fear. All assaults and attempts to rob are included. Robberies are reported in two general categories: armed (any weapon or threatening object is used) and strong-arm (to include muggings and similar offenses where no weapon is used but strong-arm tactics are employed).

Number Reported	Clearances	Rate
2545	779	30.6%

Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong arm tactic is always present. Of the 2,545 armed and strong arm robberies which were reported during 1984, 779 offenses were cleared by arrest or exceptional means. The 30.6% clearance rate for robbery is slightly higher than for other crimes motivated by the theft of property, but low by comparison with Murder, Assault, and Rape - in which the element of personal confrontation is also present. This is attributable to the fact that the perpetrator usually conceals his personal identity from the victim.



As depicted in the map (below) more than half (56.1%) of the robberies reported in 1984 occurred in the Jefferson Area Development District, 14.9% in the Bluegrass Area, and 8.6% in the Northern Kentucky Area - Kentucky's largest population centers.

ROBBERY - PLACE OF OCCURENCE

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Highway	1168	45.9	$ 605,972	$ 518
Commercial House	398	15.6	$ 266,556	$ 669
Gas-Service Station	137	5.4	$ 72,127	$ 526
Chain Store	185	7.3	$ 105,604	$ 570
Residence	298	11.7	$ 306,166	$1027
Bank	46	1.8	$ 206,477	$4488
Miscellaneous	313	12.3	$ 164,388	$ 525
TOTAL for Kentucky	2545	100.0	$1,727,290	$ 678

As shown in the above chart, the most frequent location where robbery occurs in Kentucky is the highway or street. In many instances, the victim is robbed at gun-point or with another weapon while stopped on the roadway, or when stopping to assist another motorist he "assumes" requires assistance. The fact that 45.9% of the robberies which occurred during 1984 were "highway robberies" points to the need for citizens to be extremely cautious when experiencing a breakdown or another problem which requires assistance.

Commercial house robberies account for 15.6% of the incidents reported during 1984. These incidences would include hotels, motels and other similar places of business.

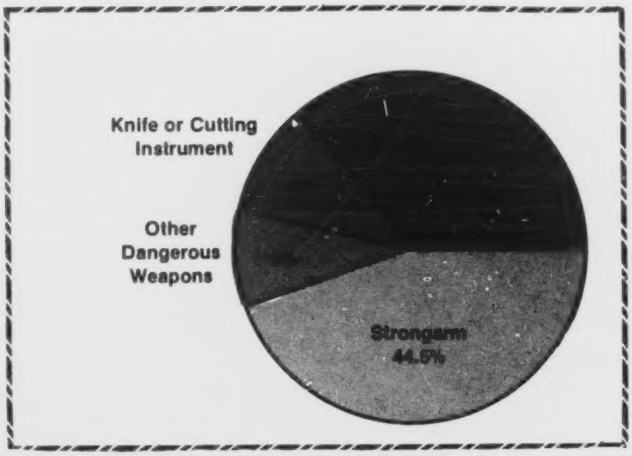
Residences are the third most frequent location for robbery, with 11.7% of the incidences reported during 1984.

Chain store robberies (7.3%) occur mostly in "convenient type" stores.

The average amount of money or property stolen in robberies is minimal when compared with the life-threatening situation for the victim. It should be noted that twenty-three persons were killed in armed robberies during 1984. Since these offenses were classified as Murders they are not included in the 2,545 robberies reported.

WEAPON USED IN ROBBERY

A firearm was used in 901 of the reported Robberies during 1984, or 35.5% of the time. Strong arm tactics (hands, fists, feet) were used in 1130 incidences, or 44.5%. A knife or other type of cutting instrument was used in 305 incidences, or 12%. Other dangerous weapons, such as clubs, sticks, etc. accounted for 209 incidences, or 8%.



PERSONS ARRESTED FOR ROBBERY - 1984

909 individuals were arrested for Robbery during 1984. 91% or those arrested were male; 54.6% were white; 45.5% were black; 90.8% were adults; and 9.2% were juveniles.

88.6% of the adults arrested for Robbery were between the ages of eighteen and thirty-four. 79.8% of the juveniles arrested were between the ages of fifteen and seventeen.

46.6% of all arrests for Robbery were reported by agencies in the Jefferson Area Development District; 15% were in the Bluegrass Area Development District.

AGGRAVATED ASSAULT

AGGRAVATED ASSAULT
1984

DEFINITION

Assault is the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury results from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all attempts to assault when serious injury would have been likely are included. Excluded from the Part I Crime of "aggravated assault" are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury. These "simple assaults" are counted as Part II Crimes.

Number Reported	Clearances	Rate
6453	4626	71.7%

Included in the 6,453 Aggravated Assaults reported during 1984 are those attacks resulting in serious or "aggravated" bodily injury as well as those in which a dangerous weapon was used but no serious injury resulted. Because the victim is frequently related to or an acquaintance of the perpetrator, the clearance rate for Aggravated Assault is high (71.7%).

As indicated in the map below, substantial numbers of Aggravated Assault occurred in each of Kentucky's Area Development Districts, with 49.4% reported in the Jefferson, Bluegrass, and Northern Kentucky areas where Kentucky's largest urban areas are located.

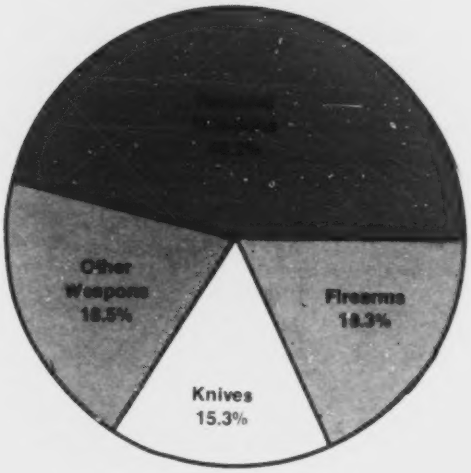
WEAPONS USED IN AGGRAVATED ASSAULT

The category of Aggravated Assault includes the following offenses: assaults or attempts to kill or murder; poisoning; assault with a dangerous or deadly weapon; mayhem, maiming, assault with explosives; and all attempts to commit the foregoing offenses.

It should be noted that it is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.



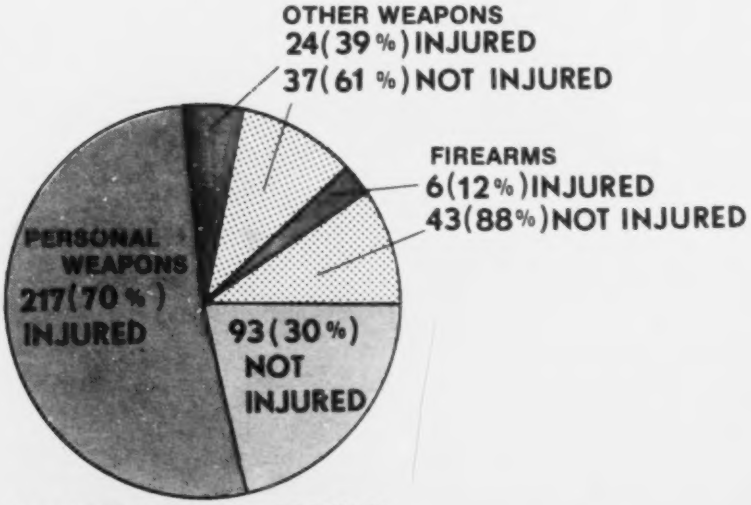
As shown in the above chart, 19.3% of the Aggravated Assaults reported involved the use of a firearm. Knives or other cutting instruments were used in 15.3% of the incidences. Other dangerous weapons, such as clubs, bottles, and other blunt instruments, were used in 18.5% of the cases investigated. Other dangerous weapons would also include attempts to maim or injure involving the use of poisons, explosives, and scalding water or burning.

The largest percentage of Aggravated Assaults involved the use of "personal" weapons such as hands, fists feet, etc. which resulted in serious or aggravated injury to the victim. Personal weapons were used in 46.9% of the Aggravated Assaults reported during 1984. The assault was classified as Aggravated if the personal injury was, in fact, serious. The seriousness of the injury is the primary factor considered by the police in classifying an assault involving hands, fists, feet, etc. as an Aggravated Assault.

It should be noted that the 6,453 Aggravated Assaults reported to the police do not include "simple", or non-aggravated assaults, for which 4,104 persons were arrested during 1984. These other assaults include all assaults which do not involve the use of a firearm, cutting instrument, or other dangerous weapon and in which there were no serious injuries to the victims. Included in these other assaults would be injury caused by culpable negligence, intimidation, coercion, and all attempts to commit these offenses. Normally, if injury occurs, the injuries are not serious (abrasions, minor lacerations, or contusions) and require no more than first-aid treatment in the case of a simple or non-aggravated assault.

POLICE OFFICERS ASSAULTED

During 1984, 424 Assaults on Police Officers occurred, resulting in injury to 247 officers. As depicted below, personal weapons (hands, fists, feet) were involved in a vast majority of assaults on police officers. 72% of the assaults occurred during dark hours, 8 P.M. to 6 A.M.



WEAPONS USED IN ASSAULTS ON POLICE OFFICERS 1984

PERSONS ARRESTED FOR AGGRAVATED ASSAULT

3,978 persons were arrested for Aggravated Assault during 1984. 88.6% of those arrested were male; 76.9% were white; 93% were adults; and 7% were juveniles.

70.3% of the adults arrested for Aggravated Assault were between the ages of eighteen and thirty-four. 72.4% of the juveniles arrested for Aggravated Assault were between the ages of fifteen and seventeen.

24.1% of all Aggravated Assault Arrests were in the Jefferson Area Development District, which includes Louisville and Jefferson County.

BURGLARY

BURGLARY IN KENTUCKY
1984

DEFINITION

Burglary is the unlawful entry of a structure with the intent to steal or commit another felony, including entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained). Thefts from premises with "open access" are not included. These thefts would be counted as larcenies.

NUMBER REPORTED	CLEARANCES	RATE
28,378	5151	18.2%

28,378 Burglaries were reported during 1984. As with other property offenses, the clearance rate for Burglary is low. Only 5,151 cases (18.2%) of all the Burglaries reported were cleared by arrest or exceptional means. Included in the offense of Burglary are all unlawful entries into a home, business, or other structure whether the perpetrator entered by force, through an unlocked door, or concealment. Forced "attempts" are also included irrespective of whether entry was gained or not. Thefts from premises with open access (e.g. a store during business hours) are not included. Such thefts are counted as "Larceny-Thefts."

As indicated in the map below, burglary is a repeated occurrence in all of Kentucky's Area Development Districts.

THE COST OF BURGLARY IN KENTUCKY

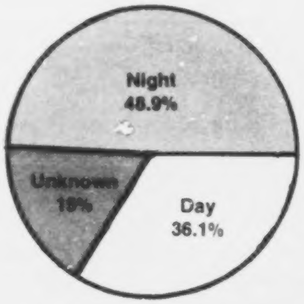
Classification	Number of Offenses	Percent of Dist.	Total Value	Average Value
Residential: Night	8835	31.1	$ 6,773,761	$766
Day	6530	23.0	$ 4,924,353	$754
Unknown	2690	9.6	$ 2,045,553	$760
Sub-Total	**18,055**		**$13,743,667**	**$761**
Non-Residential: Night	6650	23.4	$ 5,567,455	$837
Day	2083	7.3	$ 1,574,434	$755
Unknown	1590	5.6	$ 1,320,677	$830
Sub-Total	**10,323**		**$ 8,462,566**	**$819**
TOTAL FOR KENTUCKY	**23,378**		**$22,206,233**	**$782**

The reported value of property stolen in 1984 Burglaries was $22,206,233. The average loss per incident was $782, with the value of property stolen in residential burglaries slightly lower than property stolen in non-residential burglaries.

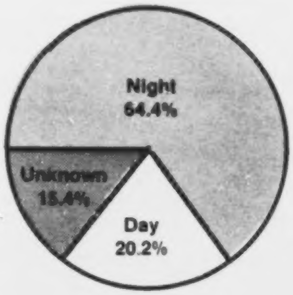
The value of property reported stolen for both residential and non-residential burglaries and the percentage of night vs. day vs. unknown times are plotted in the above chart.

The time of occurrence for residential and non-residential burglaries is shown separately in the right-hand chart. While the majority of burglaries occur during night-hours in the case of non-residential burglaries (65.4%), night-hour burglaries of residences were reported for less than half of the residential burglaries (48.9%).

Burglary is a crime of "opportunity" and can be predicted to occur most frequently when the victim is not at home and the burglar can make his entrance quickly and quietly.



Residential Burglaries



Non-Residential Burglaries

PERSONS ARRESTED FOR BURGLARY - 1984

5,297 persons were arrested for burglary during 1984. 94.6% of those arrested were male; 81.9% were white; 66.6% were adults; and 33.4% were juveniles.

90.8% of the adults arrested for burglary were between the ages of eighteen and thirty-four.

70.1% of the juveniles arrested for burglary were between the ages of fifteen and seventeen.

24.8% of all burglary arrests were reported by law enforcement agencies in the Jefferson Area Development District, which also reported the largest number of juveniles arrested for burglary.

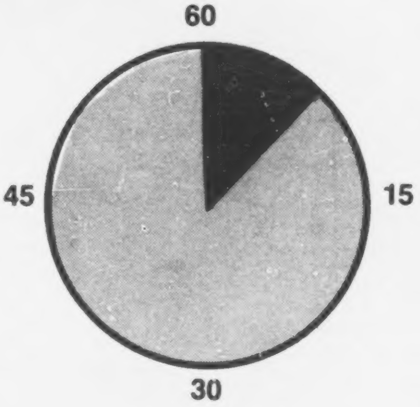
LARCENY—THEFT

LARCENY IN KENTUCKY
1984

DEFINITION

Larceny, or Larceny-Theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legitimately. The theft of automobiles, trucks, and other vehicles are classifed separately. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny. All larcenies, irrespective of the value of property stolen, are included.

Number Reported	Clearances	Rate
62,353	13,305	21.3%



1 Larceny Every
8.5 Minutes

62,353 Larcenies were reported during 1984. Larceny is the most frequently occurring PART I Crime. Only 13,305 Larcenies were cleared by arrest or exceptional means. The fact that (other than the stolen property itself) there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low: 21.3%.

64.5% of the Larcenies during 1984 were reported by agencies in the Jefferson, Bluegrass, and Northern Kentucky Area Development Districts, Kentucky's most populated urban areas.

Larceny and theft mean the same thing in UCR Reporting, irrespective of the amount stolen in each incidence. Theft of motor vehicles are not included. However, theft of items from vehicles and their accessories are included.

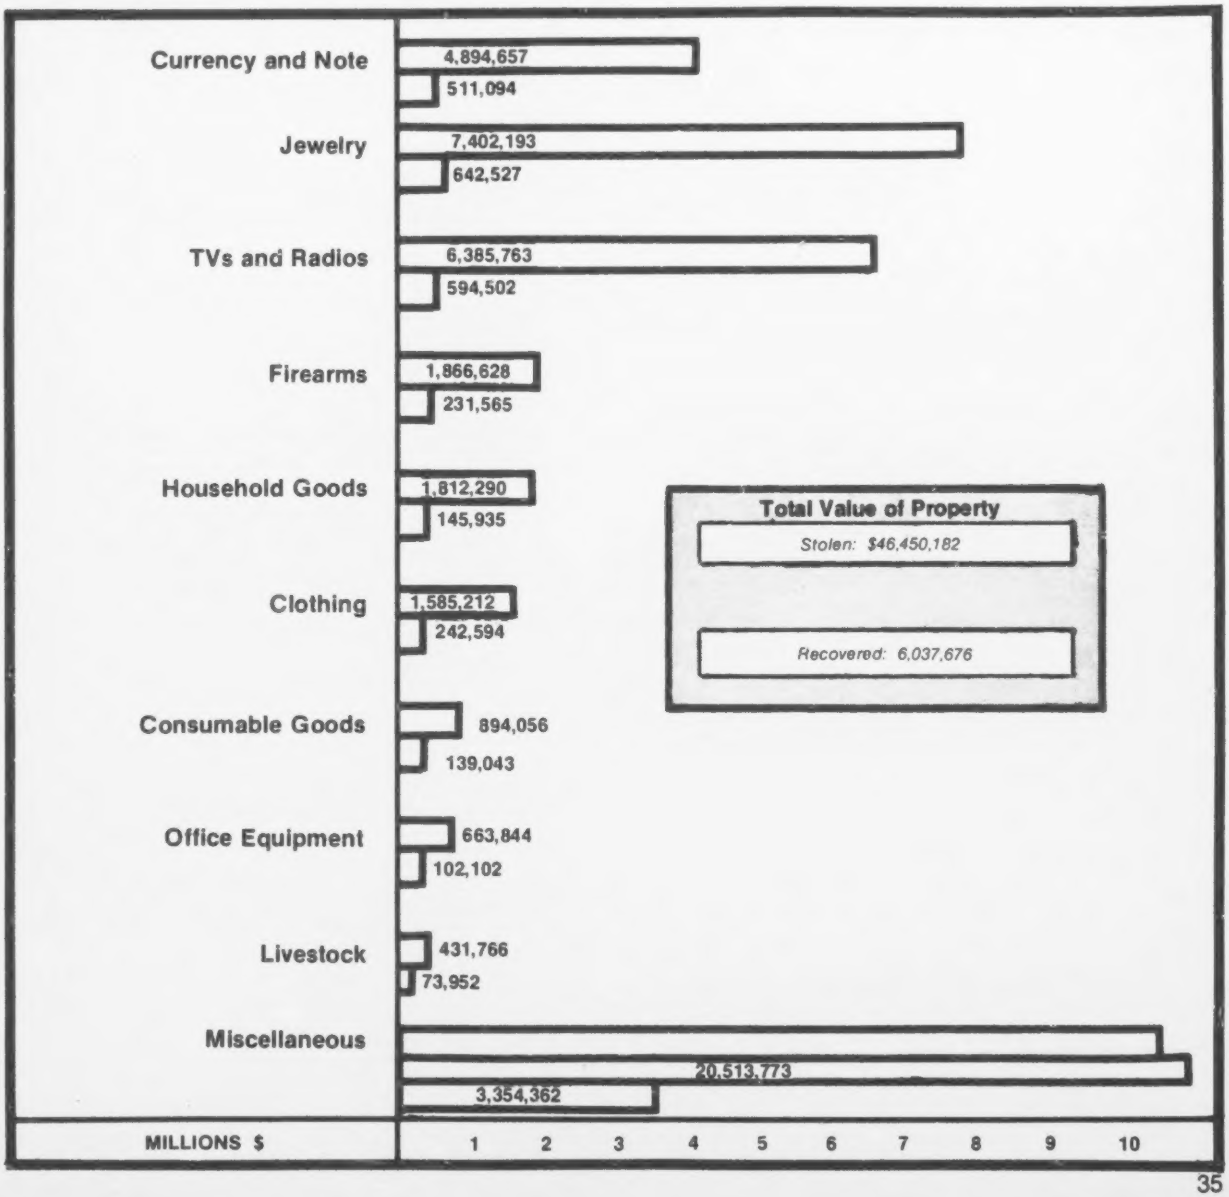
VALUE OF PROPERTY STOLEN / RECOVERED

More than $46 million in currency, notes, and other property were reported stolen in Kentucky from larcenies, burglaries, murders, and rapes committed during 1984. This figure does not include the $29,330,107 total reported value of motor vehicles stolen during the year.

As shown in the chart below, only $6,037,676 in stolen property was recovered. The percentage of property recovered is 13%. The chart also depicts amounts stolen versus recovered for selected property items most frequently stolen. Other than miscellaneous items, jewelry and precious metals represent the highest value of any single item stolen - nearly $7.5 million. Only 8.6% of these items were recovered by the police. Other frequently stolen items include Currency and Notes (10.4% recovered), TVs and Radios (9.3% recovered), Firearms (12.4% recovered), Household Goods (8% recovered), and Clothing (15.3% recovered).



THE COST OF LARCENY IN KENTUCKY

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Pocket-Picking	204	0.3	$ 68,761	$ 337
Purse Snatching	390	0.6	$ 61,894	$ 158
Shoplifting	17,391	11.9	$ 622,396	84
From Autos	11,956	19.2	$ 4,401,586	$ 368
Auto Parts and Accessories	15,217	24.4	$ 3,838,049	$ 252
Bicycles	4,183	6.7	$ 637,121	$ 152
From Buildings	9,286	14.9	$ 4,228,251	$ 455
From Coin Operated Machines	794	1.3	$ 64,630	$ 81
Livestock	321	0.5	$ 385,402	$1200
Farm Equipment	364	0.6	$ 905,095	$2486
All Other	12,247	19.6	$ 7,708,699	$ 629
Total For Kentucky	**62,353**	**100.0**	**$22,921,884**	**$ 367**

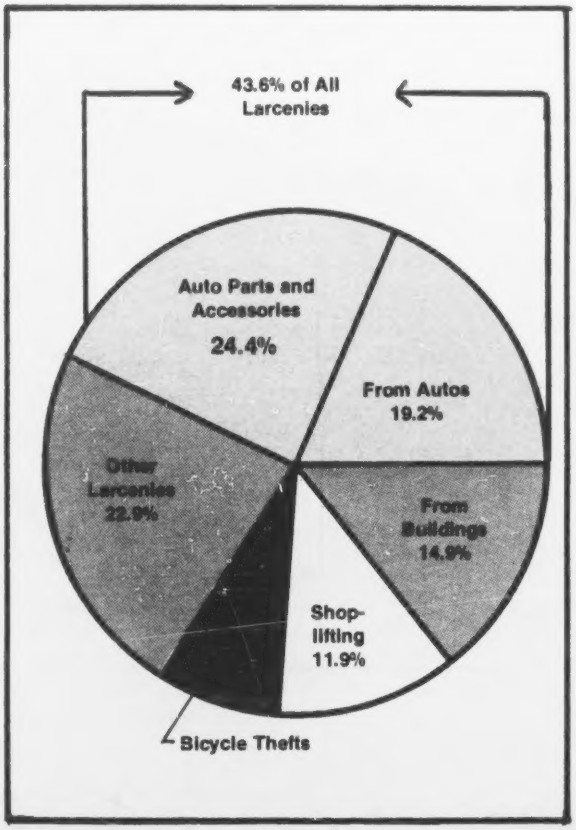
As seen in the above table, the total reported value of property stolen in larcenies reported during 1984 was $22,921,884. The nature of larcenies reported in Kentucky can be seen by the number of offenses reported in each classification and the total value of property stolen.

The right-hand chart shows the percentage of occurrence for five major types of larceny.

43.6% of all larcenies reported in Kentucky during 1984 were related to theft of Auto Parts and Accessories (24.4%) and theft of personal effects from Autos (19.2%). These two incidences account for $8,239,635 in losses, or 35.9% of the value reported stolen for all reported larcenies.

Theft of items from buildings represents 14.9% of all reported larcenies and 18.4% of the value of property stolen. Shoplifting accounts for 11.9% of the incidences, but only 2.7% of the value of property stolen. This may be attributed to the fact that many businesses do not report shoplifting incidences to the police unless and until a perpetrator has been apprehended.

While the theft of Livestock and Farm Equipment reflect only 1.1% of all larcenies, the value of these thefts are 5.6% of total larceny losses.



PERSONS ARRESTED FOR LARCENY—THEFT - 1984

13,726 persons were arrested for Larceny-Theft during 1984. 70.6% of those arrested were male; 29.4% were female; 72.8% were adults; and 27.2% were juveniles.

77.6% of the adults arrested for Larceny-Theft were between the ages of eighteen and thirty-four. 59.5% of the juveniles arrested were between the ages of fifteen and seventeen.

43.8% of all arrests for Larceny-Theft were reported by agencies in the Jefferson and Bluegrass Area Development Districts.

AUTO THEFT

AUTO THEFT IN KENTUCKY
1984

DEFINITION

Auto Theft includes all thefts and attempted thefts of motor vehicles, including cars, trucks, busses, motorcycles, mopeds, and motor homes. The taking of a vehicle for temporary use when a prior authority has been granted or can be assumed (such as in family situations) would not be classifed as an auto theft.

Number Reported	Clearance	Rate
6,518	1,264	19.4%

6,518 incidences of Auto Theft were reported to the police during 1984. Only 1,264 of the reported Auto Thefts were cleared by arrest or exceptional means. The clearance rate for this crime is low: 19.4%.

Although 58.1% of the reported Auto Thefts occurred in Kentucky's most populated areas (Jefferson, Bluegrass, and Northern Kentucky Area Development Districts) as shown in the map (below), with the exception of the Buffalo Trace Area, all other areas in Kentucky experienced substantial thefts of motor vehicles.

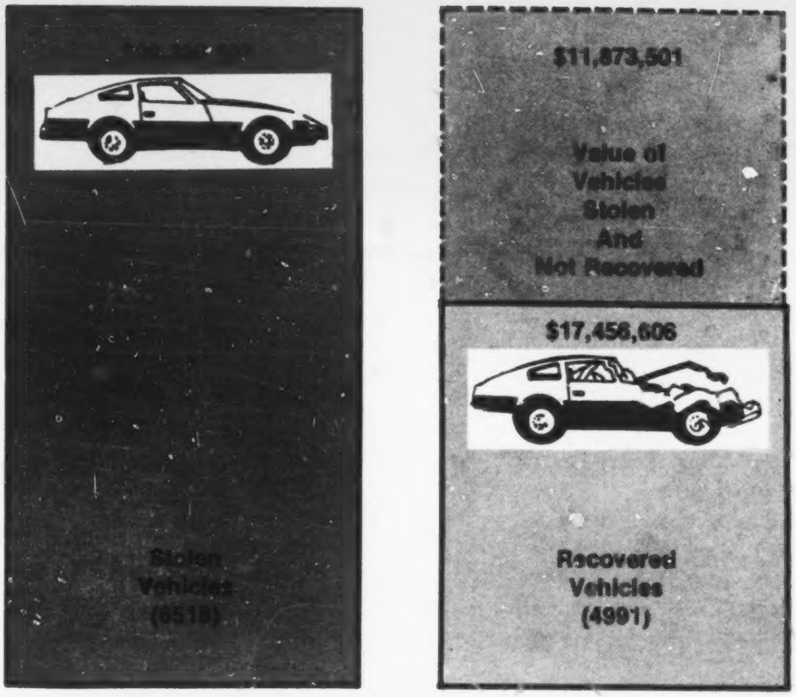
COST OF AUTO THEFT IN KENTUCKY

The value of vehicles reported stolen during 1984 was nearly $30 million. 6,518 vehicles were stolen. 4,991 vehicles were recovered. The recovery rate (stolen vs. recovered) during 1984 was 76.6%. However, comparing the value of vehicles stolen vs. recovered, the ratio is only 59.5%.

Based on reported value when vehicles were stolen, the difference between value stolen and value recovered was $11,873,501. This amount does not fully reflect the real cost of auto theft to Kentucky taxpayers because the cost of insurance premiums and other factors such as substitute transportation, lost work days, etc. are not included.

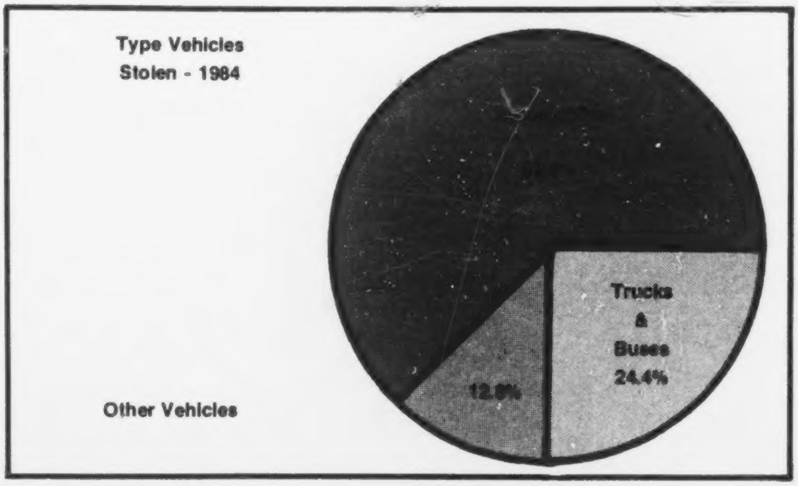


The above figures do not include 998 vehicles stolen out of town and recovered in Kentucky. Also not included in the above data are farm equipment, bulldozers, airplanes, construction equipment, and motorboats. The value of farm equipment is reported under Larceny.

4096 automobiles (cars, including taxi cabs) were reported stolen. Autos represent 62.8% of all stolen vehicles.

1592 trucks and buses were stolen, representing 24.4% of all stolen vehicles.

The 830 "other vehicles" stolen would include motorcycles, motor scooters, trailbikes, mopeds, etc., and represent 12.8% of the total number of vehicles stolen.



PERSONS ARRESTED FOR AUTO THEFT - 1984

924 persons were arrested for Auto Theft during 1984. 92.4% of those arrested were male; 63.9% were adults; and 36.1% were juveniles.

85.9% of the adults arrested for Auto Theft were between the ages of eighteen and thirty-four. 80.2% of the juveniles arrested were between the ages of fifteen and seventeen.

33.6% of all Auto Theft arrests were reported by agencies in the Jefferson and Bluegrass Area Development Districts.

ARSON

ARSON 1984

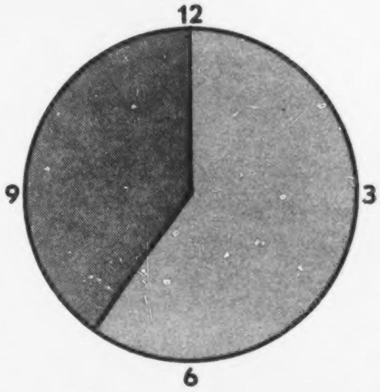
DEFINITION

Arson includes any willful or malicious burning or attempt to burn (with or without intent to defraud) a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined to have been willfully or maliciously set are classified as arson. Attempts to burn are also included.

NUMBER REPORTED	CLEARANCES	RATE
1173	211	18%

1173 incidences of arson were reported during 1984. Only 211 of these offenses were cleared by arrest.

The chart below shows the number of offenses by property type and the clearances for each. Three incidences in which crops, signs, and fences were burned are not included in the grand total below because only minor losses occurred. Single occupancy residences accounted for 40.8% of all arsons. Motor vehicles accounted for 18.3% of the reported arsons, and Storage buildings accounted for 11.8% of the arsons reported during 1984.



An ARSON OCCURS every 7.4 HOURS

	PROPERTY CLASSIFICATION	NUMBER OF OFFENSES	TOTAL Offenses Cleared	Estimated Value of Property Damage
STRUCTURAL	Single Occupancy Residential (Houses, Townhouses, Duplexes, etc.)	478	69	$8,806,485.00

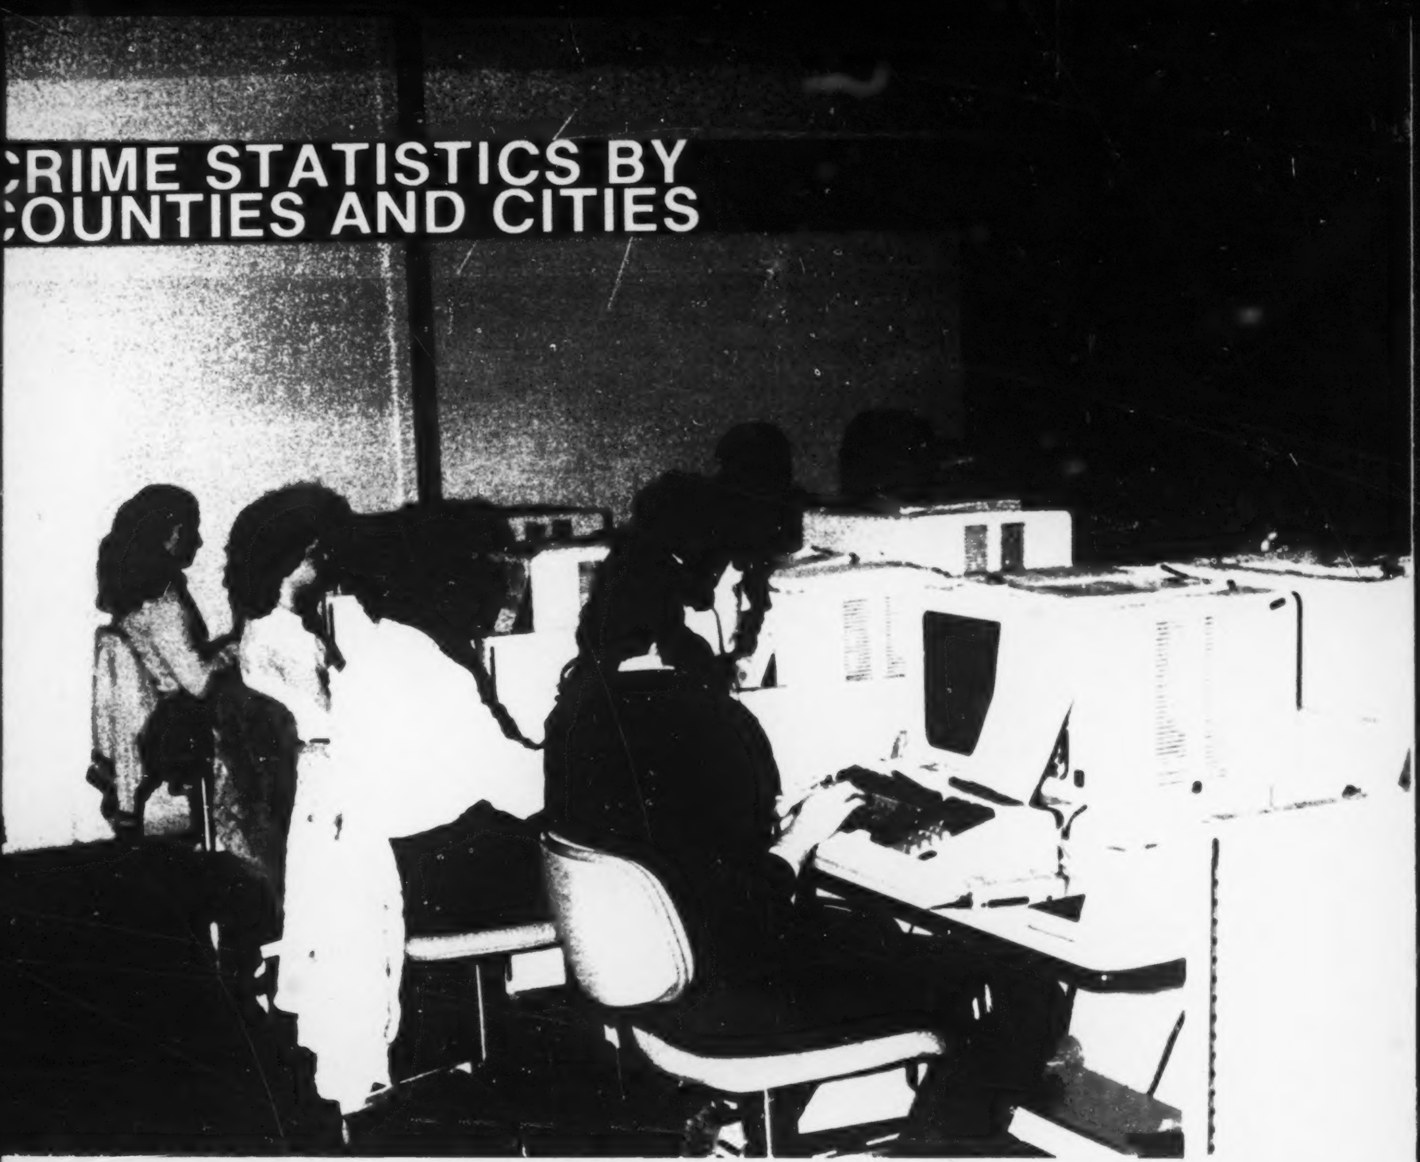
	Other Mobile Property (Trailers, Recreational Vehicles, Airplanes, Boats, etc.)	30	4	$157,450.00
	TOTAL MOBILE	244	40	$1,261,744.00
	GRAND TOTAL	1170	208	$19,489,722.00

CRIME STATISTICS BY COUNTIES AND CITIES



— NOTE

The accuracy of offense and arrest data compiled statewide is contingent upon the accurate and timely compliance with UCR reporting requirements.

Crime statistics included in this section reflect Part I Crimes and only those offenses "know to the police" and reported through the Uniform Crime Reporting Program.

Part I Crime data for each reporting agency, together with the total number of offenses for each Kentucky County are tabulated. Eighty-seven percent of the three hundred fifty law enforcement agencies in Kentucky were in full compliance with monthly UCR Reporting requirements. Forty-four agencies were delinquent. Among the delinquent agencies, seven failed to file any UCR reports for the year. The "Months on File" column indicates the number of monthly UCR reports submitted for each contributing agency.

While ninety-five percent of the required reports were received and tabulated, seventeen agencies filed their UCR reports after the deadline. Part I Crime Data from these seventeen agencies could not be tabulated, and reflect a total of 167 Part I Crimes *not included* in the 1984 Crime in Kentucky Report.

The accuracy of offense and arrest data compiled statewide is contingent upon the accurate and timely compliance with UCR reporting requirements.

Sub Total for Above Offenses	189,066	88.1

STATE ARREST TOTAL 1984	214,563

Twelve (12) percent of all arrests during 1984 were for PART I Crimes.

Arrests for property offenses (Burglary, Larceny-Theft) respresent 8.9% of all PART I and PART II Crime arrests, but represent 75% of PART I Crime arrests only.

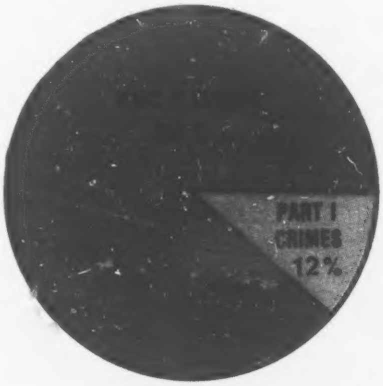
Eighty-eight (88) percent of all arrests made in Kentucky during 1984 were for PART II Crimes.

Over half (51%) of all 1984 arrests were for Drunkenness (28.7%) and Driving Under the Influence (22.7%). Compared with 1983 arrest data (see following page), 7,331 arrests for these two offense were made during 1984.

Narcotic Drug Law arrests increased also (747 more arrests); combined with Drunkenness, DUI, and Liquor Law violations, represent 57.9% of all arrests and 65.8% of all arrests for PART II Crimes.

A comparision of arrests for each PART I and PART II arrests made in 1984 and 1983 is found on the following page.

A comparison of arrests for each PART I and PART II arrests made in 1984 and 1983 is found on the following page.



TOTAL ARRESTS

COMPARSION OF STATEWIDE ARRESTS 1983-1984

Comparing 1984 versus 1983 arrest data, there was an overall increase (7.7%) in the number of arrests for 1984.

The number of persons arrested for PART I Crimes decreased by less than one percent. The number of persons arrested for PART II offenses, however, increased by 9.0%.

Significant increases and decreases in the numbers of persons arrested for various PART I and PART II Crimes, 1984 versus 1983, can be noted, as follows:

NOTES

STATISTICAL SUMMARY REPORT
1984

The following statistical summaries for the 1984 calendar year were compiled by the Information Services Branch, Records Section. As the Central Repository for Criminal History and statistical information in Kentucky, the type and volume of criminal history and statistical activities generated over a year are a reflection of the services which the Records Section provides to law enforcement agencies throughout Kentucky. This statistical summary also reflects the level of services performed by law enforcement agencies on behalf of the citizens of the Commonwealth.

Uniform crime Reports checked, entered, filed		**25,200**
Criminal Citations coded, entered		**18,443**
Uniform Offense Reports coded, entered		**30,810**
Accident Reports coded, entered, filed		**143,403**
Fatal Accident Reports coded, entered, filed		**765**
Fingerprint Cards received, classified, filed		**20,967**
Latent cases	**723**	
Positive identifications	**409**	
Individuals identified with previous records	**10,267**	
Deceased identified	**9**	
Wanted persons identified	**12**	
Mug Shot Photographs received, filed		**11,225**
Name Search Requests received		**120,093**
Statistical Information Requests received		**1,226**
Records Microprocessed and Filed		**1,093,773**
